**RE: Minnesota Power's Bison 4 Wind Project Siting Application  
for a Certificate of Site Compatibility for the Bison 4 Wind Project  
Oliver County, North Dakota  
Case No. PU-13-127**

Dear Mr. Nitschke:

Minnesota Power hereby submits an original and ten copies of Notes from Preconstruction Conference and Notice of Construction Commencement date in the above-referenced case. The Storm Water Permit and anticipated Bison 4 construction schedule are also included.

If you have any questions, or need additional information, please contact me at the number above.

Yours truly,

David R. Moeller

## Notes from Preconstruction Conference Notice of Construction Commencement Date

ALLETE, Inc. d/b/a Minnesota Power  
Bison 4 Wind Project  
Case No. PU-13-127

In accordance with North Dakota Public Service Commission's (PSC) Certification, Paragraph 2, Mr. Jerry Lein from the PSC conducted a preconstruction conference with Minnesota Power on September 26, 2013 at approximately 8:30 a.m. Attendees from Minnesota Power were the following: Matt Freudenrich, Dan McCourtney, Barry Gartner, Mike Pontius and David Moeller. Mr. McCourtney is Minnesota Power's designated representative and Mr. Freudenrich is the construction supervisor. Emma Baskerville and Bart Schultz from Houston Engineer, the PSC's third-party construction inspector, were also on the conference call.

In accordance with the PSC Certification, Paragraph 5, Minnesota Power hereby provides the notice that it will commence construction on or about **Thursday, September 26, 2013** for the Bison 4 Wind Project.

Mr. Lein and representatives of Minnesota Power discussed each paragraph of the PSC's Certification that is attached to the Order approved at its September 25, 2013 agenda meeting. Except as noted below, there was no further discussion or clarification necessary on specific Certification paragraphs.

4. Minnesota Power has obtained all necessary approvals and filed with the PSC copies of all required permits. The Bison 4 storm water permit is being filed concurrently with this notice.

5. Minnesota Power and Mr. Lein discussed expectations for the weekly construction report and that Minnesota Power will be filing a combined report with the new Tri-County Substation and the new 230 kV Transmission Line already permitted under PU-11-620. The weekly reports will also be filed with Houston Engineering.

17. Paragraph 17 of the Certification is modified by Paragraph 39 of the Findings of Fact to require only a depth of only 42 inches to the top of the lines.

21. The Certificate of Site Compatibility includes the Tree and Shrub Mitigation Specifications that is deemed attached to and part of the Order except as modified by Paragraph 39 of the Findings of Fact relating to Paragraphs 2 and 3 of those specifications.

34. Mr. Lein noted that very minor shifts in turbine locations may be approved at the Staff level.
